Skills and Techniques:

- Professionally trained in Calligraphy and Hand Lettering
- Proficient in acrylic paint and brushes
- Several years experience painting window art

Artistic Development:

- I began my art journey in the world of calligraphy. From there I discovered hand lettering. I then made the jump into window art which challenged my fine art skills and has helped me develop a much better hand and eye for beautiful compositions and a variety of subject matter.
- Jackie Knauer, of British Columbia, Canada has been a huge influence on my artistic journey. I love her playful style with its semi-realism and beautiful shades and highlights.
- I am inspired by nature, and the amazing colors and contrasts found in flowers and greenery.

- I find joy in using contrasting and vivid colors as well as bold images to brighten spaces and uplift the spirits of those enjoying the area.

Artistic Vision and Goals:

- I am passionate about the ability of art to transform spaces and evoke emotion. We are all on this journey together and I believe that art can educate us about each other, as well as unify us in our shared humanity.
- I think it is important to uplift with art. I always strive to create murals that will increase the good and the joy in the world.
